RE: **Regulation for the temporary placement of banner signs**

Attached for your consideration is a proposed ordinance implementing regulations for the temporary placement of banner signs as promotional secondary signage.

Some of the features of the proposal include:

- Updating the definition of a banner sign to include changes from the traditional use and display of banners for signage to specifically include new designs such as flag banners, sail banners, teardrop and feather banners.
- The proposed changes to existing code provisions are intended to accommodate these new types of banner signs.
- Create new regulations establishing the display time, size, location, and number requirements for traditional banner signs and the new freestanding banner signs.
- Create an application, fee and inspection/enforcement mechanism through the use of a decal system for easy monitoring.
